RE: Proposed Actions to Removal
Action 17

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the Proposed Actions to Removal Action (RA) 17 Improved Storage and Debris. U.S. EPA concurs with the proposed scope revisions and milestone changes to RA 17.

The United States Department of Energy must manage soil and debris consistently with RA 17 to assure no mixing of stockpile material with different designations occurs. Likewise, all controlled soil and debris stockpiles with engineered run-on and runoff controls or tarpaulin covers must be properly maintained.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
Technical Enforcement Section #1
RCRA Enforcement Branch
